MBody AI to Participate in StoneX 15th Annual Discovery Conference

Nasdaq-listed physical AI company to host one-on-one investor meetings in New York City

LAS VEGAS, Nov. 25, 2026 (GLOBE NEWSWIRE) — MBody AI Ltd. (“MBody AI” or the “Company”) (Nasdaq: MBAI) a physical AI company that makes embodied AI autonomous, today announced that Chief Executive Officer John Fowler will participate in StoneX 15th Annual Discovery Conference on December 10, 2026. The conference is a one-on-one institutional investor event being held at the New York Athletic Club in New York City.

“We appreciate the opportunity to engage directly with institutional investors and share our vision for transforming how physical work gets done through AI-powered robotics,” said John Fowler, Chief Executive Officer of MBody AI. “We look forward to discussing the growing adoption of our Orchestrator™ platform, which enables autonomous robots and AI-powered workforces to automate labor-intensive tasks across a range of industries. Our technology helps customers improve operational efficiency, increase productivity and achieve sustainable cost savings while addressing critical workforce shortages.”

15th Annual Discovery One-on-One Conference

The 15th Annual Discovery Conference will be held at the renowned New York Athletic Club. This premier event will bring together institutional investors and a select group of emerging growth private and public companies for one-on-one and small group meetings. The program will also feature panel discussions offering valuable market insights and perspectives.

For more information about the conference, including participation and meeting requests, please contact the StoneX Corporate Access team at CorporateAccess@stonex.com.

Forward-looking statements

This release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements in quotations, headlines, highlights and graphics. These statements concern expected benefits of the expanded Mohegan Sun deployment, including reliability, cleaning coverage and staff productivity; continuation and growth of customer relationships; future capabilities and adoption of MBody AI Orchestrator; and expansion through additional applications, hardware integrations, properties and customers. Words such as “expect,” “believe,” “intend,” “may,” “will” and similar expressions identify some, but not all, forward-looking statements.

These statements reflect management’s current expectations and assumptions regarding customer demand, technology performance, supplier availability and the Company’s financing and service capacity. Actual results may differ materially due to risks including equipment or software failures, integration difficulties, cybersecurity incidents or service interruptions; anticipated benefits not being achieved or sustained; changes in customer requirements or budgets; customer concentration, reduced orders, termination or non-renewal of engagements; delays in developing supported applications or integrations; dependence on third-party manufacturers and suppliers; equipment, personnel and service availability and costs; inability to convert pilots or expand accounts; competition and market conditions; additional capital requirements, financing availability and potential dilution; failure to maintain Nasdaq listing compliance or foreign private issuer status; and other risks described in the Company’s filings with the U.S. Securities and Exchange Commission.

Past results and customer expansion do not guarantee future performance, further orders or deployments at other properties. Forward-looking statements are not guarantees of future operating results. Readers should not place undue reliance on these statements, which speak only as of this release’s date. Except as required by law, the Company undertakes no obligation to update or revise forward-looking statements for new information, future events or otherwise.
