Arianne Extends Loan Financing

DAN: TSX-V (Canada)
JE9N: FSE (Germany)
DRRSF: OTC (USA)

SAGUENAY, QC, Dec. 18, 2019 /CNW Telbec/ – **Arianne Phosphate (the "Company" or "Arianne") (TSXV: DAN) (OTC: DRRSF) (FRANKFURT: JE9N)**, a development-stage phosphate mining company, advancing the Lac à Paul project in Quebec's Saguenay-Lac-Saint-Jean region, has announced that it has extended a loan with various third party lenders (the "Loan").

The extended loan is in the aggregate amount of $1,690,462 and will have a maturity of June 18, 2021. The loan will bear interest at 12% per annum.

As part of the loan extension, the Company has issued 3,756,583 non-transferable warrants, with each warrant entitling the holder to purchase one common share of the Company at a price of $0.27 per share for a term of 18 months expiring on June 18, 2021. These warrants will replace warrants that were issued as part of the original loan in December 2018 (see Press Release dated December 20, 2018).

"The year has seen continued progress on the part of Arianne as the Company continues to work towards the development of its Lac a Paul project," said Brian Ostroff, CEO of Arianne Phosphate. "The ongoing support of our investors, along with that of all of our stakeholders, demonstrates the belief that many have in this project. Together we are all working towards unlocking the tremendous social and economic benefits that come when a project of this natures comes into development."

The securities issued in connection with the extension of the Loan are subject to a regulatory four-month and one day hold period expiring on April 18, 2020. The extension of the Loan

remains subject to the final approval of the Exchange.

Cautionary Statements Regarding Forward Looking Information

This news release contains "forward-looking statements" and "forward-looking information" within the meaning of applicable securities regulations in Canada and the United States (collectively, "forward-looking information"). Forward-looking information includes, but is not limited to, anticipated quality and production of the apatite concentrate at the Lac à Paul project. Often, but not always, forward-looking information can be identified by the use of words such as "plans", "expects, "is expected", "budget", "scheduled", "estimates", forecasts", "intends", "anticipates", or "believes", or the negatives thereof or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might", or "will" be taken, occur or be achieved. Forward-looking information is subject to be known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking information, including but not limited to: volatile stock price; risks related to changes in commodity prices; sources and cost of power facilities; the estimation of initial and sustaining capital requirements; the estimation of labour and operating costs; the general global

markets and economic conditions; the risk associated with exploration, development and operations of mineral deposits; the estimation of mineral reserves and resources; the risks associated with uninsurable risks arising during the course of exploration, development and production; risks associated with currency fluctuations; environmental risks; competition faced in securing experienced personnel; access to adequate infrastructure to support mining, processing, development and exploration activities; the risks associated with changes in the mining regulatory regime governing the Company; completion of the environmental assessment process; risks related to regulatory and permitting delays; risks related to potential conflicts of interest; the reliance on key personnel; financing, capitalization and liquidity risks including the risk that the financing necessary to fund continued exploration and development activities at Lac à Paul project may not be available on satisfactory terms, or at all; the risk of potential dilution through the issue of common shares; the risk of litigation. Forward-looking information is based on assumptions management believes to be reasonable at the time such statements are made, including but not limited to, continued exploration activities, no material adverse change in commodity prices, exploration and development plans proceeding in accordance with plans and such plans achieving their stated expected outcomes, receipt of required regulatory approval, and such other assumptions and factors as set out herein. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in the forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such forward-looking information. Accordingly, readers should not place undue reliance on forward-looking information. Forward-looking information is made as of the date of this press release, and the Company does not undertake to update such forward-looking information except in accordance with applicable securities laws.
