Aytu BioPharma Reports Second Quarter of Fiscal Year 2023

Second Consecutive Quarter of Positive Adjusted EBITDA

Quarterly Net Revenue of \$26.3 Million Driven by 23% Growth in Rx Segment

Company to Host Conference Call Today at 5:00pm ET

ENGLEWOOD, CO / February 21, 2023 / Aytu BioPharma, Inc. (the Company or "Aytu") (NASDAQ:AYTU), a commercial stage pharmaceutical and consumer health company providing pediatric-focused prescription drugs and cost-effective consumer health solutions, today announced financial and operational results for the guarter ended December 31, 2022.

Q2 2023 Commercial Highlights (3 months ending December 31, 2022)

- Total net revenue was \$26.3 million, an increase of 14% over the \$23.1 million in net revenue in the year ago quarter.
- Net revenue from the Company's Rx segment was \$18.0 million during Q2 2023 compared to \$14.6 million in the year ago quarter, growth of 23%.
 - ADHD products (Adzenys XR-ODT® and Cotempla XR-ODT®) net revenue increased by 2% to \$11.1 million from \$10.9 million in the year ago quarter.
 - Pediatric products (Poly-Vi-Flor®, Tri-Vi-Flor®, and Karbinal® ER) net revenue increased 95% to \$6.3 million, from \$3.2 million in the year ago guarter.
- Consumer Health revenue during Q2 2023 was \$8.3 million, a decrease of 3% over the
 year ago quarter due largely to a shift away from the Consumer Health segment's direct
 mail channel to focus on the higher contribution margin OTC medicines e-commerce
 channel. The segment's core OTC medicines e-commerce portfolio revenue grew 70%
 over the year ago quarter.
- Gross margins increased to 66% in Q2 2023 compared to 53% in the year ago quarter.
- Total Adjusted EBITDA¹ was a positive \$0.7 million in Q2 2023 compared to \$(7.6) million in the year ago quarter. Expenditures attributable to the suspended Pipeline R&D were approximately \$1.3 million in Q2 2023.
- On October 13, 2022, the Company announced a shift of its strategy aimed at
 accelerating the growth of its commercial business and achieving corporate
 profitability. As a result, the Company announced the indefinite suspension of its clinical
 development programs, including AR101/enzastaurin for the treatment of Vascular
 Ehlers-Danlos Syndrome (VEDS). The suspension is expected to save the Company over
 \$20.0 million in projected future study costs.

^[1] Aytu uses the term EBITDA, which is a term not defined under United States Generally

Accepted Accounting Principles. The Company uses this term because it is a widely accepted financial indicator utilized to analyze and compare companies on the basis of operating performance. The Company believes that presenting EBITDA by segments allows investors to evaluate the various performance of these segments. The Company's method of computation of adjusted EBITDA may or may not be comparable to other similarly titled measures used by other companies. We believe that net loss is the performance measure calculated and presented in accordance with U.S. GAAP that is most directly comparable to EBITDA.

Management Discussion

"I am extremely pleased with the recent momentum the business has gained as we report our second consecutive quarter of positive Adjusted EBITDA and strong top-line performance in our Rx segment," commented Josh Disbrow, Chief Executive Officer of Aytu BioPharma. "We made strategic decisions in October 2022 to accelerate the growth of our commercial businesses and indefinitely suspend our clinical development programs, both of which have put us on a faster path to profitability. Within our Rx segment, Pediatric products net revenue increased 95% driven by the leverage we're achieving through our proprietary Aytu RxConnect platform, while ADHD scripts for the quarter rose 8.1% sequentially, highlighting the growing demand for our products. This period marks the third consecutive quarter that the Rx segment achieved positive Adjusted EBITDA. This achievement demonstrates the strength and growth of our prescription business."

"Our Consumer Health segment continues to execute on our objectives to improve segment profitability, with a focus on more efficient, higher contribution margin online sales channels, resulting in a significant 30% improvement in the segment's negative EBITDA over the same quarter last year. Revenues from the Consumer Health segment will likely be impacted as we phase out the direct mail channel and focus on OTC medicines and their e-commerce sales. This shift is expected to drive improvement to EBITDA within the Consumer Health segment. As we prepare to launch our C'rcle Health branding initiative later this year, we believe we are well positioned to build upon our recent gains and propel this segment to profitability."

"The significant progress we have made over the past two quarters, along with the initiatives we've put in place for further improvements and cost reductions during the remainder of fiscal 2023, have put us in a stronger financial position to drive long-term shareholder value," Disbrow concluded.

Q2 2023 Financial Results

Net revenue for the second quarter of fiscal 2023 was \$26.3 million, compared to \$23.1 million for the second quarter of fiscal 2022, a 14% increase year-over-year.

Net revenue from the Rx segment in the second quarter of fiscal 2023 was \$18.0 million, an increase of 23% over the same quarter last year. ADHD brands Adzenys XR-ODT and Cotempla XR-ODT experienced 2% growth in net prescription revenue to \$11.1 million in the second quarter of fiscal 2023. ADHD Portfolio net revenue grew despite being affected by calendar year-end weather-related shipping delays that pushed ADHD Portfolio revenue into Q3. The Pediatric Portfolio comprised of Poly-Vi-Flor, Tri-Vi-Flor, and Karbinal ER experienced 95% growth in net revenue to \$6.3 million in the second quarter of fiscal 2023.

Net revenue from the Consumer Health segment was \$8.3 million in the second quarter of fiscal 2023, a decrease of 3% over the same quarter last year. Net revenue was impacted by the Company's strategic decision in fiscal 2022 to pivot its efforts to the more efficient, higher margin ecommerce channel, with a primary focus on improving its visibility on, and sales of, value OTC medicines through Amazon and the Company's websites. The segment's core Amazon OTC medicines business grew 70% over the same period last year.

Gross profit increased to \$17.3 million, or 66% of net revenue, in the second quarter of fiscal 2023, compared to \$12.3 million, or 53% of net revenue, in the same quarter last year. The improvement was primarily driven by sales gains in the higher margin Pediatric Portfolio and continuing cost reduction efforts.

Operating expenses, excluding impairment expense and amortization of intangible assets, were \$20.3 million in the second quarter of fiscal 2023 compared to \$22.1 million in the same quarter last year, a decrease of 8%. Research and development expenses were \$1.7 million in the second quarter of fiscal 2023 compared to \$4.5 million in the same quarter last year. Of this \$1.7 million, \$1.3 million were expenses associated with the recently suspended AR101/enzastaurin pipeline program.

Net loss during the second quarter of fiscal 2023 was impacted by an impairment of \$2.6 million relating to the pipeline development of the NT-502 development program. The Company expects to terminate this program and the associated licensing agreement. There were no impairments during the second quarter of fiscal 2022.

Net loss for the second quarter of fiscal 2023 was \$(6.7) million, or \$(2.15) per share,

compared to \$(11.5) million, or \$(8.74) per share for the same quarter last year.

Adjusted EBITDA (see Table A-1) was \$0.7 million in the second quarter of fiscal 2023, compared to \$(7.6) million in the year ago quarter.

Balance Sheet and Operational Improvements

Cash and cash equivalents on December 31, 2022 were \$19.5 million compared to \$23.8 million on September 30, 2022.

As part of the Company's indefinite suspension of its clinical development programs, the Company expects to save over \$20.0 million in projected future study costs.

The manufacturing transfer to a global contract manufacturer of the ADHD products remains on track to be completed in calendar 2023, and this transition is expected to further improve gross margins of Adzenys XR-ODT and Cotempla XR-ODT.

During the quarter, the Company announced an agreement with the Avenue Venture Opportunities Fund, L.P. ("Avenue Venture Debt Fund" or "Avenue") to extend the interest-only period of the Company's existing senior secured loan facility held with Avenue. This amendment to the original secured loan agreement extends the interest-only period to January of 2024. The maturity date of the Avenue secured loan is January 2025 and remains subject to additional interest-only period extensions upon the achievement of certain milestones by the Company. The extension of the interest-only period will conserve cash and save the Company over \$3 million in calendar 2023 principal payments by deferring those payments into 2024 and 2025. In exchange for this extension, the Company and Avenue agreed to reset the exercise price of the warrants issued in conjunction with the original loan agreement to \$8.60 (\$0.43 before the reverse split), corresponding to the warrant exercise price associated with the Company's August 2022 equity financing.

The company implemented a 1-for-20 reverse stock split, effective January 6, 2023. This action enabled the Company to regain full compliance with Nasdaq's listing requirements effective January 23, 2023.

Warrant Transactions

The Company evaluated the accounting for previously granted warrants included in its debt and equity transactions. The Company restated Form 10-Q for the quarter ending September 30, 2022 in order to modify the accounting for certain warrants to liabilities from equity treatment. The changes in the restated Form 10-Q resulted in a reclassification of the value of these warrants from additional paid in capital to liabilities. Going forward, the Company will value these warrants on a quarterly basis, which could result in additional income or expense and a corresponding decrease or increase in derivative warrant liabilities. These adjustments have no impact on cash, working capital, cash flows from operations or Adjusted EBITDA.

Conference Call Details

Aytu will host a conference call today, Tuesday, February 21st, 2023, at 5:00 PM Eastern Time to discuss financial results for the second fiscal quarter of 2023 for the quarter ended December 31, 2022.

The conference call will be available via telephone by dialing toll free 888-506-0062 for U.S. callers or for international callers 973-528-0011 and using entry code 371594. A webcast of the call may be accessed at https://www.webcaster4.com/Webcast/Page/2142/47499.

A webcast replay will be available on the Investors News/Events section of the Company's website through. A telephone replay of the call will be available approximately one hour following the call, through February 28, 2023, and can be accessed by dialing 877-481-4010 for U.S. callers or 919-882-2331 for international callers and entering replay access code 47499.

About Aytu BioPharma, Inc.

Aytu BioPharma is a pharmaceutical company commercializing a portfolio of commercial prescription therapeutics and consumer health products. The Company's prescription products include Adzenys XR-ODT® (amphetamine) extended-release orally disintegrating tablets (see Full Prescribing Information, including Boxed WARNING) and Cotempla XR-ODT® (methylphenidate) extended-release orally disintegrating tablets (see Full Prescribing Information, including Boxed WARNING) for the treatment of attention deficit hyperactivity disorder (ADHD), as well as Karbinal® ER (carbinoxamine maleate), an extended-release antihistamine suspension indicated to treat numerous allergic conditions, and Poly-Vi-Flor® and Tri-Vi-Flor®, two complementary fluoride-based prescription vitamin product lines available in various formulations for infants and children with fluoride deficiency. Aytu's consumer health segment markets a range of over-the-counter medicines, personal care products, and dietary supplements addressing a range of common conditions including diabetes, allergy, hair regrowth, and gastrointestinal conditions.
