# Aytu BioScience Provides Fiscal Second Quarter 2018 Business Update - Live Conference Call and Webcast Today at 4:30 pm ET

Natesto prescriptions increased 23% over previous quarter, and 317% over the same quarter last year

ENGLEWOOD, Colo., Feb. 8, 2018 — Aytu BioScience, Inc. (NASDAQ: AYTU), a specialty life sciences company focused on global commercialization of novel products in the field of urology, today provided an overview of its business, including the Company's operational and financial results for its fiscal second quarter ended December 31, 2017. The Company will host a live conference call and webcast today at 4:30 p.m. ET. Conference call details are provided at the end of this press release.

"I am pleased to report Aytu's second quarter results, which reflect strong unit sales growth and cost management. Natesto prescriptions increased 23% over our first quarter of this fiscal year to 2,501, which is up 317% over the same quarter last year, while at the same time we reduced our sequential quarter cash burn," commented Josh Disbrow, Chief Executive Officer of Aytu BioScience.

Mr. Disbrow continued, "While we are satisfied with Natesto unit sales growth, and cash management, our dollar net sales figure is temporarily not at the same growth rate as unit sales. The reason for the temporary disparity is due to discounting and coupon incentives which are used to increase sales to first time Natesto patients. However, we expect to be able to accelerate growth and reduce the level of discounting we have experienced with three targeted strategic actions. The first action is to roll out our recently piloted Natesto Support Program, which allows us to capture more prescription reimbursement, yielding more revenue for each new prescription. The Natesto Support Program is also expected to lead to a higher refill rate on new prescriptions. Second, we are pursuing third party payers to more broadly cover Natesto, and third, we are continuing to invest in increasing the body of clinical evidence supporting Natesto's distinct efficacy and safety profile."

Mr. Disbrow concluded, "During the quarter we also had a number of additional operational highlights. First, we continued to grow our business internationally for our MiOXSYS male infertility device, now sold in 36 countries worldwide. Second, we uplisted to NASDAQ,

expanding our reach into the investment community. Additionally, we announced the appointment of David Green as Chief Financial Officer. Mr. Green is a highly accomplished CFO, who brings an extensive array of financial, accounting, and operational experience to Aytu, including a background at both public and private life sciences companies over his twenty-five-year career. There was also some recent news that further cemented barriers to entry in the nearly \$2 billion U.S. testosterone replacement therapy (TRT) market that Natesto addresses. Taken as a whole, the second quarter reinforced that Aytu has very strong momentum with a well-positioned product portfolio and the personnel to maximize shareholder value."

### **Q2 2018 Operational Highlights**

- Recognized \$1.05 million in total revenue for the second quarter of fiscal 2018, representing a 32% increase over Q2 fiscal 2017
- Listed the Company's common shares on the NASDAQ Capital Market, on which trading of shares under the ticker symbol "AYTU" began October 20, 2017
- Increased Natesto prescription demand to 2,501 total prescriptions, representing a 317% increase over Q2 fiscal 2017
- Increased Natesto unit sales to wholesalers to over 7,100, representing a 397% increase over Q2 fiscal 2017's pull-through demand levels
- Increased the number of Natesto prescribers across the U.S. to 1,178, which represents a 174% increase over O2 fiscal 2017
- Increased the number of MiOXSYS System placements globally to 38 since the beginning of fiscal 2018 through the Company's distribution partners, representing an increase of 73% over the same period last year

## **Q2 2018 Financial Results**

Total revenue for the second quarter of 2018 was \$1,050,000 compared to revenue of \$794,000 for the same period last year, an increase of 32%. Natesto and MiOXSYS comprised the majority of sales in the second quarter of 2018. Product sales in the same quarter of 2017 were mostly comprised of ProstaScint and Primsol, a product that was divested in late fiscal 2017.

Operating expenses for the second quarter of 2018 were \$5,045,000, which was in line with the same quarter last year.

Cash used in operations for the quarter was \$3,101,000, down 26% from the first quarter of 2018.

Cash and cash equivalents totaled approximately \$4,000,000 as of December 31, 2017.

#### **Conference Call Information**

The Company will host a live conference call at 4:30 p.m. ET today. The conference call can be accessed by dialing either:

1 (855) 656-0926 (U.S.)

1 (412) 542-4198 (international)

The webcast will be accessible live during the conference call and archived on Aytu BioScience's website, within the Investors section under Corporate Presentations & Media, at aytubio.com, for 90 days.

A replay of the call will be available for seven days. Access the replay by calling 1 (877) 344-7529 (U.S.) or 1 (412) 317-0088 (international) and using the replay access code 10116883.

#### **About Aytu BioScience, Inc.**

Aytu BioScience is a commercial-stage specialty life sciences company focused on global commercialization of novel products in the field of urology, with a focus on products addressing vitality, sexual wellness, and reproductive health. The Company currently markets two prescription products in the U.S.: Natesto®, the second and only FDA-approved nasal formulation of testosterone for men with hypogonadism (low testosterone, or "Low T") and ProstaScint® (capromab pendetide), the only FDA-approved imaging agent specific to prostate specific membrane antigen (PSMA) for prostate cancer detection and staging. Additionally, Aytu is developing MiOXSYS®, a novel, rapid semen analysis system with the potential to become a standard of care for the diagnosis and management of male infertility caused by oxidative stress. MiOXSYS® is commercialized outside the U.S. where it is a CE Marked, Health Canada cleared, Australian TGA approved product, and Aytu is planning U.S.based clinical trials in pursuit of 510k medical device clearance by the FDA. Aytu's strategy is to continue building its portfolio of revenue-generating products, leveraging its focused commercial team and expertise to build leading brands within growing markets. For more information visit aytubio.com. Aytu also now owns wholly-owned subsidiary Aytu Women's Health (formerly Nuelle, Inc.), a personal health and wellness company focused on women's sexual wellbeing and intimacy. Aytu Women's Health markets Fiera, a personal care device for women that is scientifically proven to enhance physical arousal and sexual desire. Fiera is a consumer device and is not intended to treat, mitigate, or cure any disease or medical condition. For more information about the Fiera personal care device visit fiera.com.

#### **Forward-Looking Statements**

This press release includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, or the Exchange Act. All statements other than statements of historical facts contained

in this presentation, are forward-looking statements. Forward looking statements are generally written in the future tense and/or are preceded by words such as "may," "will," "should," "forecast," "could," "expect," "suggest," "believe," "estimate," "continue," "anticipate," "intend," "plan," or similar words, or the negatives of such terms or other variations on such terms or comparable terminology. These statements are just predictions and are subject to risks and uncertainties that could cause the actual events or results to differ materially. These risks and uncertainties include, among others: the risks related to Natesto sales not increasing, MiOXSYS not expanding outside the US, and setbacks related to the integration of Fiera that would affect having adequate cash to effectively operate into fourth guarter fiscal 2018, risks relating to gaining market acceptance of our products, obtaining reimbursement by third-party payors, the potential future commercialization of our product candidates, the anticipated start dates, durations and completion dates, as well as the potential future results, of our ongoing and future clinical trials, the anticipated designs of our future clinical trials, anticipated future regulatory submissions and events, our anticipated future cash position and future events under our current and potential future collaboration. We also refer you to the risks described in "Risk Factors" in Part I, Item 1A of Aytu BioScience, Inc.'s Annual Report on Form 10-K and in the other reports and documents we file with the Securities and Exchange Commission from time to time.
