

Dyadic to Present at Industry Events in November

JUPITER, Fla., Oct. 30, 2023 (GLOBE NEWSWIRE) — Dyadic International, Inc. (“Dyadic”, or the “Company”) (NASDAQ: DYAI), a global biotechnology company focused on building innovative microbial platforms to address the growing demand for global protein bioproduction and unmet clinical needs for effective, affordable and accessible biopharmaceutical products for human and animal health, and alternative proteins for food, nutrition and wellness, today announced that its management will be participating and presenting at the following industry events during the month of November:

Cultured Meat Symposium 2023, November 2-3, 2023

StarBase, Las Vegas

Joseph Hazelton, Chief Business Officer

8th International Vaccines Research & Development, November 6-8, 2023

Hilton Baltimore BWI Airport Hotel, Linthicum Heights, MD

Mark Emalfarb, President, and Chief Executive Officer

“Next-Gen Vaccines without the Right Platform Limit Pandemic Effectiveness C1, Protective, Rapid, High Yield, Low-Cost Global Solution”

Presentation Time: Monday, November 6, 2023, 2:10 PM – 2:30 PM ET

BARDA Industry Day 2023, November 13-14, 2023

Grand Hyatt Washington, Washington, DC

Joseph Hazelton, Chief Business Officer

Vaccines Summit, November 13-15, 2023

Sheraton Boston Needham Hotel, Boston, MA

Mark Emalfarb, President, and Chief Executive Officer

“Rapid development and flexible scale of complex recombinant proteins and antigens including ferritin nanoparticles for infectious diseases including COVID-19 and seasonal and pandemic influenza”

Presentation Time: Wednesday, November 15, 2023, 1:40 PM – 2:00 PM ET

If you would like to connect with Dyadic’s management at any of these events, you may request a one-on-one meeting at jlavalley@dyadic.com

About Dyadic International, Inc.

Dyadic International, Inc. is a global biotechnology company focused on building innovative microbial platforms to address the growing demand for global protein bioproduction and unmet clinical needs for effective, affordable, and accessible biopharmaceutical products and alternative proteins for human and animal health.

Dyadic's gene expression and protein production platforms are based on the highly productive and scalable fungus *Thermothelomyces heterothallica* (formerly *Myceliophthora thermophila*). Our lead technology, C1-cell protein production platform, is based on an industrially proven microorganism (named C1), which is currently used to speed development, lower production costs, and improve performance of biologic vaccines and drugs at flexible commercial scales for the human and animal health markets. Dyadic has also developed the Dapibus™ filamentous fungal based microbial protein production platform to enable the rapid development and large-scale manufacture of low-cost proteins, metabolites, and other biologic products for use in non-pharmaceutical applications, such as food, nutrition, and wellness.

With a passion to enable our partners and collaborators to develop effective preventative and therapeutic treatments in both developed and emerging countries, Dyadic is building an active pipeline by advancing its proprietary microbial platform technologies, including our lead asset DYAI-100 COVID-19 vaccine candidate, as well as other biologic vaccines, antibodies, and other biological products.

To learn more about Dyadic and our commitment to helping bring vaccines and other biologic products to market faster, in greater volumes and at lower cost, please visit <http://www.dyadic.com>.

Safe Harbor Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including those regarding Dyadic International's expectations, intentions, strategies, and beliefs pertaining to future events or future financial performance, such as the success of our clinical trial and interest in our protein production platforms, our research projects and third-party collaborations, as well as the availability of necessary funding. Actual events or results may differ materially from those in the forward-looking statements because of various important factors, including those described in the Company's most recent filings with the SEC. Dyadic assumes no obligation to update publicly any such forward-looking statements, whether because of new information, future events or otherwise. For a more complete description of the risks that could cause our actual results to differ from our current expectations, please see the section entitled "Risk Factors" in Dyadic's annual reports on Form 10-K and quarterly reports on Form 10-Q filed with the SEC, as such factors may be updated from time to time in Dyadic's periodic filings with the SEC, which are accessible on the SEC's website and at www.dyadic.com.
