

## **Dyadic to Present at Upcoming Industry and Investor Events in November**

JUPITER, Fla., Nov. 07, 2022 (GLOBE NEWSWIRE) — Dyadic International, Inc. (“Dyadic”, or the “Company”) (NASDAQ: DYAI), a global biotechnology company focused on building innovative microbial platforms to address the growing demand for global protein production and unmet clinical needs for effective and affordable biopharmaceutical products for human and animal health, today announced that its management and representatives will participate in the following upcoming industry and investor events in November 2022:

**RAFT® 14 Conference (Recent Advances in Fermentation Technology)**

Hosted by the Society for Industrial Microbiology and Biotechnology

November 6-9, 2022

Caribe Royale Hotel – Orlando, FL

Presenter: Mark Emalfarb

Presentation Time: 1:00 PM ET, Tuesday, November 8, 2022

Registration Link: RAFT® 14

**BARDA Industry Day 2022 Virtual Event**

November 15-16, 2022

Website: BID2022

**INVE\$TIVAL Showcase™**

November 14, 2022

Old Billingsgate, London, UK

Presenter: Mark Emalfarb

Presentation Time: 12:00 PM GMT

Registration Link: INVESTIVAL SHOWCASE

**Jefferies London Healthcare Conference**

November 16-19, 2022

Waldorf Hilton (Aldwych) London, UK

Website: Jefferies London Healthcare Conference

Dyadic management will be available during these events for one-on-one meetings. Interested parties may request a one-on-one meeting at [jlavalley@dyadic.com](mailto:jlavalley@dyadic.com) or contact Dyadic at (561) 743-8333.

### **About Dyadic International, Inc.**

Dyadic International, Inc. is a global biotechnology company committed to building innovative microbial platforms to address the growing demand for global protein bioproduction and unmet clinical needs for effective, affordable, and accessible biopharmaceutical products for human and animal health.

Dyadic's gene expression and protein production platforms are based on the highly productive and scalable fungus *Thermothelomyces heterothallica* (formerly *Myceliophthora thermophila*). Our lead technology, C1-cell protein production platform, is based on an industrially proven microorganism (named C1), which is currently used to speed development, lower production costs, and improve performance of biologic vaccines and drugs at flexible commercial scales for the human and animal health markets. Dyadic has also developed the Dapibus™ filamentous fungal based microbial protein production platform to enable the rapid development and large-scale manufacture of low-cost proteins, metabolites, and other biologic products for use in non-pharmaceutical applications, such as food, nutrition, and wellness.

With a passion to enable our partners and collaborators to develop effective preventative and therapeutic treatments in both developed and emerging countries, Dyadic is building an active pipeline by advancing its proprietary microbial platform technologies, including our lead asset DYAI-100 COVID-19 vaccine candidate, as well as other biologic vaccines, antibodies, and other biological products.

To learn more about Dyadic and our commitment to helping bring vaccines and other biologic products to market faster, in greater volumes and at lower cost, please visit [www.dyadic.com](http://www.dyadic.com).

### **Safe Harbor Regarding Forward-Looking Statements**

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including those regarding Dyadic International's expectations, intentions, strategies, and beliefs pertaining to future events or future financial performance, such as the success of our clinical trial application and our ability to secure commercial agreements and take advantage of other business opportunities. Actual events or results may differ materially from those in the forward-looking statements because of various important factors, including those described in the Company's most recent filings with the SEC. Dyadic assumes no obligation to update publicly any such forward-looking statements, whether because of new information, future events or otherwise. For a more complete description of the risks that could cause our actual results to differ from our current expectations, please see the section entitled "Risk Factors" in Dyadic's annual reports on Form 10-K and quarterly reports on Form 10-Q filed with the SEC, as such factors may be updated from time to time in Dyadic's periodic filings with the SEC, which are accessible on the SEC's website and at [www.dyadic.com](http://www.dyadic.com).
