

## **GSE Solutions Receives New Contracts for Continued Engineering Services**

*One contract awarded in the UK, opening the expansion of engineering services into Global Markets*

COLUMBIA, Md., Oct. 30, 2023 — GSE Systems, Inc. (“GSE Solutions” or “GSE” or the “Company”) (Nasdaq: GVP), a leader in advanced engineering services and workforce solutions that support the future of clean-energy production and decarbonization initiatives of the nuclear power industry, announced today it has been awarded in excess of \$0.5 million in contracts to provide Engineering Program updates for two large nuclear power customers in United States and United Kingdom.

Much of the proceeds from these contracts will provide ASME Code Program updates for Britain’s biggest generator of zero-carbon electricity. Over the several years, GSE’s Engineering, Programs & Performance division has continued to generate engineering program business in Spain, South Africa, and China to support the company’s new service strategic global expansion initiatives.

Both new contracts include Appendix J License Amendments, In-Service Testing (IST) service updates, and training courses, which can be delivered virtually or onsite. These services will ensure our clients remain compliant with the requirements of the latest approved edition addenda of the ASME OM and ASME Section XI Codes and associated regulatory requirements.

“For over 20 years, GSE Programs & Performance (formerly True North Consulting) has provided a full range of engineering programmatic services to the nuclear industry,” said Damian DeLongchamp, Vice President of GSE Engineering, Programs & Performance. “We are excited to continually expand globally to broaden our engineering services reach and provide more nuclear customers with cost-effective services that ensure the safe operation of their facilities.”

### **ABOUT GSE SOLUTIONS**

Proven by more than 50 years of experience in the nuclear power industry, GSE knows what

it takes to help customers deliver carbon-free electricity safely and reliably. Today, GSE Solutions leverages top talent, expertise, and technology to help energy facilities achieve next-level power plant performance. GSE's advanced Engineering and Workforce Solutions divisions offer highly specialized training, engineering design, program compliance, simulation, and technical staffing that reduce risk and optimize plant operations. With more than 1,100 installations and hundreds of customers in over 50 countries, GSE delivers operational excellence. [www.gses.com](http://www.gses.com)
