

## **Intelligent Protection Management Corp. Enters Into AI Reseller Agreement with MindsDB**

***“Starter Mind” to be introduced as cost-effective AI solution for medium-sized businesses***

**JERICHO, NY / ACCESS Newswire / September 17, 2025** / Intelligent Protection Management Corp. (“IPM,” the “Company,” “we,” “our” or “us”) (NASDAQ:IPM), a managed technology solutions provider focused on enterprise cybersecurity and cloud infrastructure, announced today it has entered into a reseller agreement with MindsDB, a leading open-source AI platform that delivers AI analytics capabilities for complex business questions, that can operate anywhere (on-prem, VPC, serverless). IPM will also become a Starter Minds customer and intends to integrate MindsDB’s technology into its own operations for greater workflow efficiency.

MindsDB powers AI-driven business intelligence and analytics across multiple data sources within their customers’ private, hybrid and public compute infrastructure, without the need to reconfigure or move their in-house data. It seamlessly integrates structured and unstructured data to create a secure, private AI analytics tool that delivers answers to business questions asked in simple natural language. Adding MindsDB to their technology stack empowers businesses to become AI-enabled in a seamless and efficient manner.

Jason Katz, Chairman and CEO of IPM, said, “We are pleased to be working with MindsDB to provide their leading AI platform to our current and future customers. The MindsDB platform is designed to process highly variable data to produce actionable intelligence, allowing customers to achieve operational results and advance their strategic business plans.

“In conjunction with MindsDB, we will be introducing a cost-effective “Starter Mind” version of the MindsDB “Enterprise” flagship product for customers that we believe can dramatically benefit from a tailored feature set that works within the parameters of their operational and budgetary requirements. We believe that this arrangement will allow IPM to stand out by delivering embedded AI capabilities to its enterprise and public sector clients in a very efficient manner.”

### **About MindsDB**

MindsDB enables humans, AI, agents, and applications to get highly accurate answers across disparate data sources and types. Unlocking AI Search and Analytics for enterprises, MindsDB unifies petabyte-scale structured and unstructured data across diverse data sources and applications. Powered by an industry-first cognitive engine that can operate anywhere (on-prem, VPC, serverless), it empowers both humans and AI with highly informed decision-making capabilities.
