About INVO Fertility

We are a healthcare services fertility company dedicated to expanding access to assisted reproductive technology ("ART") care to patients in need. Our principal commercial strategy is focused on building, acquiring, and operating fertility clinics and related businesses and technologies. Our acquisition strategy focuses on U.S.-based, profitable fertility clinics. Our clinics offer a variety of fertility services including in vitro fertilization ("IVF") and the intravaginal culture ("IVC") procedure enabled by INVOcell. We have four operational fertility clinics in the United States. We also continue to engage in the sale and distribution of INVOcell to third-party owned and operated fertility clinics. INVOcell is a proprietary and revolutionary medical device, and the first to allow fertilization and early embryo development to take place in vivo within the woman's body.
