

## **INVO to Participate in the Lytham Partners Fall 2023 Investor Conference**

SARASOTA, Fla., Oct. 11, 2023 — INVO Bioscience, Inc. (Nasdaq: INVO) (“INVO” or the “Company”), a healthcare services fertility company focused on expanding access to advanced treatment worldwide with its INVOcell® medical device and the intravaginal culture (“IVC”) procedure it enables, announced today that Steve Shum, CEO, will be participating in a Panel Presentation at the Lytham Partners Fall 2023 Investor Conference on Tuesday, October 17, 2023. Management will also be conducting one-on-one meetings with investors.

### **Panel Presentation**

Mr. Shum will be participating in a panel titled, “Fertility Frontiers: Leading Edge Technologies Addressing the Fertility Market.” This panel, also to be conducted virtually, will be held on Tuesday, October 17, 2023, at 12:00 pm ET. To access the panel, please visit: <https://wsw.com/webcast/lytham9/panel3/2274168>.

### **1×1 Meetings**

Management will be participating in virtual one-on-one meetings throughout the event. To arrange a meeting with management, please contact Lytham Partners at [1x1@lythampartners.com](mailto:1x1@lythampartners.com) or register at <https://www.lythampartners.com/fall2023invreg/>.

### **About INVO Bioscience**

We are a healthcare services fertility company dedicated to expanding the assisted reproductive technology (“ART”) marketplace by making fertility care accessible and inclusive to people around the world. Our commercialization strategy is focused on the opening of dedicated “INVO Centers” offering the INVOcell® and IVC procedure (with three centers in North America now operational), the acquisition of US-based, profitable in vitro fertilization (“IVF”) clinics and the sale and distribution of our technology solution into existing fertility clinics. Our proprietary technology, INVOcell®, is a revolutionary medical device that allows fertilization and early embryo development to take place in vivo within the woman’s body. This treatment solution is the world’s first intravaginal culture technique for the incubation of oocytes and sperm during fertilization and early embryo development. This technique, designated as “IVC”, provides patients a more natural, intimate, and more affordable experience in comparison to other ART treatments. We believe the IVC procedure can deliver comparable results at a fraction of the cost of traditional IVF and is a significantly

more effective treatment than intrauterine insemination (“IUI”). For more information, please visit [www.invobio.com](http://www.invobio.com).

### **Safe Harbor Statement**

This release includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company invokes the protections of the Private Securities Litigation Reform Act of 1995. All statements regarding our expected future financial position, results of operations, cash flows, financing plans, business strategies, products and services, competitive positions, growth opportunities, plans and objectives of management for future operations, as well as statements that include words such as “anticipate,” “if,” “believe,” “plan,” “estimate,” “expect,” “intend,” “may,” “could,” “should,” “will,” and other similar expressions are forward-looking statements. All forward-looking statements involve risks, uncertainties, and contingencies, many of which are beyond our control, which may cause actual results, performance, or achievements to differ materially from anticipated results, performance, or achievements. Factors that may cause actual results to differ materially from those in the forward-looking statements include those set forth in our filings at **[www.sec.gov](http://www.sec.gov)**. We are under no obligation to (and expressly disclaim any such obligation to) update or alter our forward-looking statements, whether as a result of new information, future events or otherwise.
