

## **LiqTech International, Inc. Receives NSF61 Certification**

BALLERUP, Denmark, Oct. 25, 2016 — **LiqTech International, Inc. (NYSE MKT: LIQT)**

LiqTech is pleased to announce that its products have been certified according to NSF61 for drinking water products.

Mr. Sune Mathiesen, LiqTech CEO remarked, “Earlier this year our products were certified according to NSF50 for swimming pool products. This allowed us to start the marketing of our products in North America and we are encouraged by the progress we have made so far.”

“We have proven that our technology is capable of removing a.o. Parasites, Bacteria, Iron, Manganese, Boron and Arsenic at attractive Capex and Opex. With this new certification for drinking water we can start our efforts of establishing ourselves in the North American drinking water industry using the experience we gained from European projects,” Mr. Mathiesen concluded.

### **About LiqTech International**

LiqTech International, Inc., a Nevada corporation, is a clean technology company that for more than a decade has developed and provided state-of-the-art technologies for gas and liquid purification using ceramic silicon carbide filters, particularly highly specialized filters for the control of soot exhaust particles from diesel engines and for liquid filtration. Using nanotechnology, LiqTech develops products using proprietary silicon carbide technology. LiqTech’s products are based on unique silicon carbide membranes, which facilitate new applications and improve existing technologies. In particular, LiqTech Systems A/S ([www.provital.dk](http://www.provital.dk)), the Company’s subsidiary, has developed a new standard of water filtration technology to meet the ever increasing demand for higher water quality. By incorporating LiqTech’s SiC liquid membrane technology with its longstanding systems design experience and capabilities it offers solutions to the most difficult water pollution problem.
