

## **LiqTech International Receives \$2.0 Million Follow-on Order For Groundwater Treatment Plant**

BALLERUP, Denmark, May 4, 2016 — **LiqTech International, Inc. (NYSE MKT: LIQT) (“LiqTech”)** is pleased to announce that the Company has received a \$2.0 million follow-on order for the Ground Water Treatment Plant in Serbia that was announced by the Company in February 2016. The total value of the project is \$4.0 million and the order is expected to be delivered partly in the second quarter and partly in the third quarter of 2016.

Mr. Sune Mathiesen, LiqTech CEO, remarked, “The cooperation with the customer during the engineering phase has been excellent, and we are very pleased that the customer has now decided to increase our scope of the project.”

“We continue to focus on the drinking water market, and we are seeing an increased level of interest from several geographical areas. We continue to concentrate on the drinking water industry and we believe that we will see further orders from Serbia and other markets,” Mr. Mathiesen concluded.

### **ABOUT LIQTECH INTERNATIONAL, INC.**

LiqTech International, Inc., a Nevada corporation, is a clean technology company that for more than a decade has developed and provided state-of-the-art technologies for gas and liquid purification using ceramic silicon carbide filters, particularly highly specialized filters for the control of soot exhaust particles from diesel engines and for liquid filtration. Using nanotechnology, LiqTech develops products using proprietary silicon carbide technology. LiqTech’s products are based on unique silicon carbide membranes, which facilitate new applications and improve existing technologies. In particular, LiqTech Systems A/S ([www.provital.dk](http://www.provital.dk)), the Company’s subsidiary, has developed a new standard of water filtration technology to meet the ever increasing demand for higher water quality. By incorporating LiqTech’s SiC liquid membrane technology with its longstanding systems design experience and capabilities it offers solutions to the most difficult water pollution problem.
