

LiqTech International Receives First Order From New Customer In The Municipal Pool Market In France

BALLERUP, Denmark, March 3, 2016 — **LiqTech International, Inc. (NYSE MKT: LIQT) (“LiqTech”)** is pleased to announce that the Company has received a USD \$150,000 order from a new customer in the municipal pool market in France. The order was received by LiqTech’s distributor Lea Technology Group and is the first pool related system order from a French customer.

Mr. Sune Mathiesen, LiqTech CEO, remarked, “The French municipal pool market is focused on high water quality and energy efficient solutions. Since our pool systems offer high water quality and low energy and water consumption, we recently targeted France as a potential market. For the past year, we have been developing the market in close cooperation with Lea Technology Group and we are pleased to see this first order.”

“We believe that one of the keys to success in the French market is having a local presence. We are very pleased with our relationship and the cooperation between LiqTech and the Lea Technology Group. Our joint efforts have already proven successful, as we have been specified for numerous projects from this and other end-users. This first order is a great start and we anticipate additional orders in the future,” Mr. Mathiesen concluded.

ABOUT LIQTECH INTERNATIONAL, INC.

LiqTech International, Inc., a Nevada corporation, is a clean technology company that for more than a decade has developed and provided state-of-the-art technologies for gas and liquid purification using ceramic silicon carbide filters, particularly highly specialized filters for the control of soot exhaust particles from diesel engines and for liquid filtration. Using nanotechnology, LiqTech develops products using proprietary silicon carbide technology.

LiqTech’s products are based on unique silicon carbide membranes which facilitate new applications and improve existing technologies. In particular, Provital Solutions A/S (www.provital.dk/), the Company’s subsidiary, has developed a new standard of water filtration technology to meet the ever increasing demand for higher water quality. By incorporating LiqTech’s SiC liquid membrane technology with its longstanding systems design experience and capabilities it offers solutions to the most difficult water pollution problem.
