Liqtech Receives Another $399,000 Order For A Marine Scrubber Water Treatment System

BALLERUP, Denmark, May 18, 2017 — **LiqTech International, Inc. (NYSE MKT: LIQT**) **("LiqTech")** is pleased to announce that the Company has received a $399,000 order for the Company´s system for treatment of waste water from marine scrubbers.

Mr. Sune Mathiesen, LiqTech CEO, remarked, "We are pleased to receive another order for our marine scrubber water treatment systems. We are equally pleased to note that the activity level from our customers within the marine scrubber industry continues to increase.

As earlier discussed we have invested significant resources in the development of a standardized system for this application. We are pleased that our investments are being rewarded and we believe that we will continue to see a positive development in the sales of these systems", Mr. Mathiesen concluded.

ABOUT LIQTECH INTERNATIONAL, INC.
LiqTech International, Inc., a Nevada corporation, is a clean technology company that for more than a decade has developed and provided state-of-the-art technologies for gas and liquid purification using ceramic silicon carbide filters, particularly highly specialized filters for the control of soot exhaust particles from diesel engines and for liquid filtration. Using nanotechnology, LiqTech develops products using proprietary silicon carbide technology. LiqTech's products are based on unique silicon carbide membranes which facilitate new applications and improve existing technologies. In particular, LiqTech Systems A/S (www.provital.dk), the Company's subsidiary, has developed a new standard of water filtration technology to meet the ever increasing demand for higher water quality. By incorporating LiqTech's SiC liquid membrane technology with its longstanding systems design experience and capabilities it offers solutions to the most difficult water pollution problem.
