

LiqTech Receives Three New Orders For Marine Scrubber Water Treatment Systems From Two Different Customers

BALLERUP, Denmark, Dec. 11, 2017 — **LiqTech International, Inc. (NYSE American: LIQT) (“LiqTech”)** is pleased to announce that the Company has received three new orders for the Company’s standardized systems for treatment of waste water from marine scrubbers. The orders came from two different customers.

Mr. Sune Mathiesen, LiqTech CEO, remarked, “We are pleased to receive these three new orders for our marine scrubber water treatment systems. We have experienced a significant ramp-up in our marine scrubber business in the second half of 2017, and we believe that we will see a further ramp-up in the coming quarters.”

ABOUT LIQTECH INTERNATIONAL, INC.

LiqTech International, Inc., a Nevada corporation, is a clean technology company that for more than a decade has developed and provided state-of-the-art technologies for gas and liquid purification using ceramic silicon carbide filters, particularly highly specialized filters for the control of soot exhaust particles from diesel engines and for liquid filtration. Using nanotechnology, LiqTech develops products using proprietary silicon carbide technology. LiqTech’s products are based on unique silicon carbide membranes which facilitate new applications and improve existing technologies. In particular, Provital Solutions A/S (www.provital.dk), the Company’s subsidiary, has developed a new standard of water filtration technology to meet the ever-increasing demand for higher water quality. By incorporating LiqTech’s SiC liquid membrane technology with its longstanding systems design experience and capabilities it offers solutions to the most difficult water pollution problem.
