

## **LiqTech Signs Another Framework Agreement With Marine Scrubber Manufacturer**

+35 SYSTEMS EXPECTED TO BE DELIVERED IN 2018 AND 2019

BALLERUP, Denmark, April 11, 2018 — **LiqTech International, Inc.** (NYSE AMERICAN: LIQT) ("**LiqTech**") is pleased to announce that the Company has signed another framework agreement with a large marine scrubber manufacturer. The framework agreement has an initial term for 2018 and 2019 and provides that a minimum of 35 systems are estimated to be delivered during the initial term. The first 14 systems to be purchased under the framework agreement have already been identified.

Mr. Sune Mathiesen, LiqTech CEO, remarked, "We are very pleased to sign this new framework agreement. Three weeks ago we announced a framework agreement for an expected more than 95 systems in 2018 and 2019, and now we have the pleasure of announcing this new agreement for an expected more than 35 systems in 2018 and 2019."

"Our standardized marine scrubber wastewater treatment systems offers significant advantages in terms of foot-print, discharge quality, Capex saving and Opex savings. We have been working in this industry for almost four years now, and our technology has proven well suited for this challenging application."

### **ABOUT LIQTECH INTERNATIONAL, INC.**

LiqTech International, Inc., a Nevada corporation, is a clean technology company that for more than a decade has developed and provided state-of-the-art technologies for gas and liquid purification using ceramic silicon carbide filters, particularly highly specialized filters for the control of soot exhaust particles from diesel engines and for liquid filtration. Using nanotechnology, LiqTech develops products using proprietary silicon carbide technology. LiqTech's products are based on unique silicon carbide membranes which facilitate new applications and improve existing technologies. In particular, Provital Solutions A/S ([www.provital.dk](http://www.provital.dk)), the Company's subsidiary, has developed a new standard of water filtration technology to meet the ever-increasing demand for higher water quality. By incorporating LiqTech's SiC liquid membrane technology with its longstanding systems design experience and capabilities it offers solutions to the most difficult water pollution problem.
