MBody AI Advances AI Robotics Rollout at Mohegan Sun

MBody AI Ltd. (NASDAQ: MBAI) completes successful Mohegan Sun pilot deployment and begins negotiation on planned commercial expansion

ISFIYA, Israel and LAS VEGAS, Sept. 09, 2026 (GLOBE NEWSWIRE) — **MBody AI Ltd. ("MBody AI" or the "Company") (NASDAQ: MBAI)**

MBody AI Ltd. (NASDAQ: MBAI) today announced that it has successfully completed a Proof of Concept deployment of its autonomous robotic systems at Mohegan Sun, one of North America's largest casino and entertainment destinations. The pilot robots have remained in service at Mohegan Sun and switched to a paid commercial agreement since the pilot concluded. Mohegan Sun located in Uncasville, Connecticut, is a 5.5 million-square-foot resort that ranks among the largest integrated entertainment resorts in the United States, with 1,600 hotel rooms, two unique casinos, a 10,000-seat award-winning arena, and 275,000 square feet of convention and meeting space operating around the clock, 365 days a year.

During the pilot deployment, MBody AI deployed autonomous robots across two of the most demanding environments in hospitality: the gaming floor and the conference center. The robots operated through full day and evening shifts, handling repetitive and time-sensitive tasks so that Mohegan Sun staff could focus on higher-value, guest-facing work. Following strong results in the pilot deployment, Mohegan Sun has indicated it will expand the number of robots under a muti-year subscription agreement later this year.

The deployment is managed by the MBody AI Orchestrator™, the company's hardware-agnostic platform for coordinating diverse robot fleets across sites and use cases. The anticipated expansion would make Mohegan Sun one of MBody AI's larger single-property gaming deployments and reflects the company's strategy of converting successful pilots into standing commercial operations.

> *"MBody's technology has transformed our daily operations. We can rely on it to do high quality, safe work throughout the day and evening, while my staff can focus on higher-*

value jobs. We look forward to continuing to work with MBody and to exploring other opportunities to bring technology to Mohegan Sun for the betterment of our guests and team members," said Melissa Benoit, Director of Housekeeping and EVS, Mohegan Sun.

"Mohegan Sun holds an extremely high bar for their guests' experience, and our technology proved it could adapt to one of the most demanding environments in hospitality. The pilot generated strong data that supports expansion, and it is the model we intend to repeat across every property we enter," said John Fowler, Chief Executive Officer of MBody AI.

About MBody AI Ltd.

MBody AI Ltd. (NASDAQ: MBAI) develops enterprise software that deploys and manages autonomous robot workforces for hospitality and gaming operators. The Company's proprietary MBody AI Orchestrator is a hardware-agnostic software platform that manages diverse robot fleets from multiple vendors across sites and use cases under long-term agreements. MBody AI counts Fortune 500 operators among its customers.

No Offer or Solicitation

This press release does not constitute an offer to sell or a solicitation of an offer to buy, and shall not constitute an offer, solicitation, or sale in any state, province, territory, or jurisdiction in which such offer, solicitation, or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements made in graphics, images, headlines, and other visual elements of this release. All statements other than statements of historical fact are forward-looking statements, which include, among others, statements regarding the anticipated expansion of the Company's deployment at Mohegan Sun, including the negotiation, execution, timing and terms of any expansion agreement and the scope of any expanded deployment; the continuation of the Company's existing commercial engagement at Mohegan Sun; the Company's deployment pipeline, customer expansion, and commercial scaling, including its ability to convert pilot deployments into standing commercial operations; the Company's technology roadmap, including the development and deployment of multi-brand fleet control capability; the anticipated growth of the embodied AI market; the Company's ability to maintain continued compliance with Nasdaq listing requirements; and the Company's continued qualification as a foreign private issuer. These forward-looking statements are based on the Company's current

intentions, beliefs, and expectations regarding future events. Actual results may differ materially due to risks and uncertainties including, but not limited to, the risk that no expansion agreement is entered into with Mohegan Sun on the anticipated timeline or at all, or is entered into on terms less favorable than anticipated; the risk that the Company's existing commercial engagement at Mohegan Sun is terminated or not renewed; integration risks; customer concentration risk; the Company's ability to convert pilot deployments into contracted revenue; the risk that the Company fails to satisfy Nasdaq continued listing standards, including the minimum bid price and shareholders' equity requirements; the risk that the Company ceases to qualify as a foreign private issuer and becomes subject to domestic reporting requirements; the Company's need for additional capital and the dilutive effect of any financing; market conditions; and other factors described in the Company's filings with the U.S. Securities and Exchange Commission. The Company undertakes no obligation to update forward-looking statements except as required by law.
