

Modular Medical Announces Collaboration with Glooko

SAN DIEGO, CA / December 21, 2023 / Modular Medical, Inc. (Nasdaq:MODD) (“Modular Medical” or the “Company”), a development-stage, insulin delivery technology company seeking to launch the next generation of user-friendly and affordable insulin pump technology, today announced a collaboration agreement with Glooko, Inc., a global leader specializing in connected care and remote patient monitoring for diabetes. Integrating with Glooko will allow clinicians and patients to easily review insulin dosing data from the MODD1 pump, when commercially available. In addition, through Glooko's platform, Dexcom CGMS users will be able to view their glucose levels in the same accessible format in conjunction with their pump data.

Glooko's platform has a broad installed base, which has been deployed in over 30 countries and 8,000 clinical locations.

“We are extremely pleased to add the Glooko technology platform to our diabetes care system making it even easier and more cost effective for us to provide this important capability to our clinical and patient base. Glooko's mission to improve health outcomes of people with chronic conditions through its personalized, intelligent, connected care platform fits perfectly with our vision of providing an easy to use, affordable delivery technology to give more patients access to better care,” said Jeb Besser, CEO of Modular Medical.

About Modular Medical

Modular Medical, Inc. (Nasdaq:MODD) is a development-stage medical device company that intends to launch the next generation of insulin delivery technology. Using its patented technologies, the company seeks to eliminate the tradeoff between complexity and efficacy, thereby making top quality insulin delivery both affordable and simple to learn. Our mission is to improve access to the highest standard of glycemic control for people with diabetes taking it beyond “superusers” and providing “diabetes care for the rest of us.”

Modular Medical was founded by Paul DiPerna, a seasoned medical device professional and microfluidics engineer. Prior to founding Modular Medical, Mr. DiPerna was the founder (in 2005) of Tandem Diabetes and invented and designed its t:slim insulin pump. About Glooko

Glooko improves health outcomes of people with diabetes and related chronic conditions through its personalized, intelligent, connected care platform. Our proven technologies make lives better by revolutionizing the connection between patients and providers, driving patient engagement and adherence, and accelerating the speed of clinical trials. Glooko is globally

deployed in over 30 countries and 8,000+ clinical locations. For more information, please visit glooko.com.

Forward-Looking Statements

This press release contains forward-looking statements that are made pursuant to the Safe Harbor provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are subject to risks, trends, and uncertainties that could cause actual results to be materially different from the forward-looking statements contained in this press release. These factors include, but are not limited to, the ability of Modular Medical to integrate its products with third party technologies, whether Modular Medical can successfully develop its proprietary technologies, whether the market will accept Modular Medical's products and services, Modular Medical's ability to obtain FDA clearance for its MODD 1 product, anticipated consumer demand for its products, whether Modular Medical can successfully manufacture its products at high volumes, general economic, industry or political conditions in the United States or internationally as well as other risk factors and business considerations described in Modular Medical's SEC filings, including its annual report on Form 10-K. Any forward-looking statements in this press release should be evaluated in light of these important risk factors. In addition, any forward-looking statements included in this press release represent Modular Medical's views only as of the date of its publication and should not be relied upon as representing its views as of any subsequent date. Modular Medical assumes no obligation to update these forward-looking statements, except as required by law.
