

Precision Optics to Participate in the Planet MicroCap Showcase: VEGAS 2023 on April 26-27, 2023

GARDNER, Mass., April 21, 2023 — Precision Optics Corporation, Inc. (NASDAQ: POCL), a leading designer and manufacturer of advanced optical instruments for the medical and defense industries, today announced Dr. Joe Forkey, CEO, will be participating in the Planet MicroCap Showcase: VEGAS 2023 on April 26-27, 2023.

The Company's webcasted presentation will be available for viewing at 7:00pm ET (4:00pm PT) on Wednesday, April 26, 2023 at <https://www.webcaster4.com/Webcast/Page/2963/48066>. The webcast will also be archived and available for replay.

Management will also be participating in 1x1 meetings at the conference venue in Las Vegas. If you would like to book a 1x1 meeting with Precision Optics, please contact the event organizers or POCL@lythampartners.com.

About Precision Optics Corporation

Founded in 1982, Precision Optics is a vertically integrated optics company primarily focused on leveraging its proprietary micro-optics and 3D imaging technologies to the healthcare and defense/aerospace industries by providing services ranging from new product concept through mass manufacture. Utilizing its leading-edge in-house design, prototype, regulatory and fabrication capabilities as well as its Lighthouse Imaging division's electronic imaging expertise and its Ross Optical division's high volume world-wide sourcing, inspecting and production resources, the Company is able to design and manufacture next-generation product solutions to the most challenging customer requirements. Within healthcare, Precision Optics enables next generation medical device companies around the world to meet the increasing demands of the surgical community who require more enhanced and smaller imaging systems for minimally invasive surgery as well as 3D endoscopy systems to support the rapid proliferation of surgical robotic systems. In addition to these next generation

applications, Precision Optics has supplied top tier medical device companies a wide variety of optical products for decades, including complex endocouplers and specialized endoscopes. The Company is also leveraging its technical proficiency in micro-optics to enable leading edge defense/aerospace applications which require the highest quality standards and the optimization of size, weight and power. About Forward-Looking Statements

This press release contains forward-looking statements. Forward-looking statements include, but are not limited to, statements which express the Company's intentions, beliefs, expectations, strategies, predictions or any other statements related to the Company's future activities or future events or conditions. These statements are based on current expectations, estimates and projections about the Company's business based, in part, on assumptions made by the Company's management. These statements are not guarantees of future performances and involve risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in the forward-looking statements due to numerous factors, including those risks discussed in the Company's annual report on Form 10-K and in other documents we file from time to time with the SEC. Any forward-looking statements speak only as of the date on which they are made, and the Company does not undertake any obligation to update any forward-looking statement, except as required by law.
