Company Information

Pure Cycle continues to diversify its operations, grow its balance sheet, and drive recurring revenues. We operate in three distinct business segments, each of which complement one another. At our core we are an innovative and vertically integrated wholesale water and wastewater service provider. In 2017, we launched our land development segment which develops master planned communities on land we own and to which we provide water and wastewater services. In 2021, we launched our newest line of business, the rental of single-family homes located at Sky Ranch, which provides long-term recurring revenues, furthers our land development operations, and adds more customers to our water resource segment.
