About Modular Medical

Modular Medical, Inc. (NASDAQ:MODD) is a medical device company that will launch the next generation of insulin delivery technology. Using its patented technologies, the Company seeks to eliminate the tradeoff between complexity and clinical efficacy, thereby making top quality insulin delivery both affordable and simple to learn. The Company's mission is to improve access to the highest standard of glycemic control for people with diabetes, taking it beyond "superusers" and providing diabetes care for the rest of us.

Modular Medical was founded by Paul DiPerna, a seasoned medical device professional and microfluidics engineer. Prior to founding MODD, Mr. DiPerna was the founder (in 2005) of Tandem Diabetes and invented and designed its t:slim insulin pump. More information is available at <https://modular-medical.com>.
