

Reliq Health Technologies, Inc. Announces 8 New Contracts in Texas, New iUGO Care Module

HAMILTON, Ontario, April 30, 2020 — **Reliq Health Technologies Inc. (TSXV:RHT or OTCQB:RQHTF)** (“**Reliq**” or the “**Company**”), a technology company focused on developing innovative mobile health (mHealth) and telemedicine solutions for Community-Based Healthcare, is pleased to announce that it has signed contracts with 8 new clients in Texas to use its proprietary iUGO Care Remote Patient Monitoring (RPM), Chronic Care Management (CCM), Principal Care Management (PCM) and Telemedicine platform.

“We are very pleased to have added eight new clients to our customer base in Texas,” said Dr. Lisa Crossley, CEO of Reliq Health Technologies, Inc. “We will begin onboarding patients for these clients in May. The new clients include physician practices, home health agencies and an oncology specialist practice. The oncology practice will be using Reliq’s new iUGO Care PCM (Principle Care Management) module. New billing codes for PCM were introduced by the Centers for Medicare and Medicaid Services (CMS) in 2020. These codes allow specialists to provide care management services to patients with one high risk disease or complex chronic condition, unlike Chronic Care Management (CCM) codes which are designed for primary care physicians to provide care management services for patients with at least two chronic conditions. The new PCM billing codes can be billed concurrently with Remote Patient Monitoring (RPM), providing substantial new virtual care-based revenue streams to specialists. We are excited to be able to expand our patient base to include this newly covered patient population.”

Reliq Health Technologies is a healthcare technology company that specializes in developing innovative software solutions for the Community Care market. Reliq’s powerful iUGO Care platform supports care coordination and community-based healthcare. iUGO Care allows complex patients to receive high quality care at home, improving health outcomes, enhancing quality of life for patients and families and reducing the cost of care delivery. iUGO Care provides real-time access to remote patient monitoring data, allowing for timely interventions by the care team to prevent costly hospital readmissions and ER visits. Reliq Health Technologies trades on the TSX Venture under the symbol RHT and on the OTCQB as RQHTF.

ON BEHALF OF THE BOARD

“Dr. Lisa Crossley”

CEO and Director
