

Reliq Health Technologies, Inc. Announces New Contracts in Texas, California and Puerto Rico; Increased CMS Reimbursement Amounts

HAMILTON, Ontario, Jan. 18, 2022 — **Reliq Health Technologies Inc. (TSXV:RHT or OTC:RQHTF or WKN:A2AJTB)** (“**Reliq**” or the “**Company**”), a rapidly growing global healthcare technology company that develops innovative Virtual Care solutions for the multi-billion dollar Healthcare market, today announced that it has signed new contracts with five physician practices in Texas, Puerto Rico and California.

“We are pleased to be adding these five practices to our platform,” said Dr. Lisa Crossley, CEO of Reliq Health Technologies, Inc. “These new clients include primary care, internal medicine, nephrology and orthopedic practices. These contracts will add over 3,000 patients to our platform by the end of Q2 at an average revenue of over \$60 USD per patient per month. The Centers for Medicare & Medicaid Services (CMS) have increased reimbursement amounts by over 8% relative to 2021 for existing covered services including Remote Patient Monitoring (RPM), Chronic Care Management (CCM), Behavioural Health Integration (BHI) and Transitional Care Management (TCM). Effective January 1st, 2022, CMS has also introduced five new billing codes for Remote Therapeutic Monitoring (RTM), which allows for monitoring of both physiologic and non-physiologic data (e.g. medication adherence) for patients who have musculoskeletal conditions or asthma. These increased financial incentives clearly demonstrate CMS’s commitment to funding proactive, preventative healthcare programs aimed at preventing complications and hospitalizations in patients with chronic conditions, improving health outcomes and reducing healthcare costs. Market demand for Reliq’s products continues to grow as more clinicians recognize the benefits of iUGO Care for both their patients and their practices.”

Reliq Health

Reliq Health Technologies is a rapidly growing global healthcare technology company that specializes in developing innovative Virtual Care solutions for the multi-billion dollar Healthcare market. Reliq’s powerful iUGO Care platform supports care coordination and community-based virtual healthcare. iUGO Care allows complex patients to receive high quality care at home, improving health outcomes, enhancing quality of life for patients and families and reducing the cost of care delivery. iUGO Care provides real-time access to remote patient monitoring data, allowing for timely interventions by the care team to prevent costly hospital readmissions and ER visits. Reliq Health Technologies trades on the TSX Venture under the symbol RHT, on the OTC as RQHTF and on the WKN as A2AJTB.

ON BEHALF OF THE BOARD
