

Reliq Health Technologies, Inc. Signs Seven New Contracts in Texas

HAMILTON, Ontario, Feb. 07, 2020 — **Reliq Health Technologies Inc. (TSXV:RHT or OTCQB:RQHTF)** (“**Reliq**” or the “**Company**”), a technology company focused on developing innovative mobile health (mHealth) and telemedicine solutions for Community-Based Healthcare, today announced that it has signed contracts with seven new clients in Texas.

“We are pleased to announce that we continue to build on our customer traction in Texas,” said Dr. Lisa Crossley, CEO of Reliq Health Technologies, Inc. “We will be onboarding these seven new clients in Dallas, Laredo and Hidalgo County this month. With these clients we are expanding into two new clinical use cases - Pediatric Remote Patient Monitoring (Pediatric RPM) and Principal Care Management (PCM). Effective January 1, 2020, the Centres for Medicare & Medicaid Services (CMS) introduced PCM billing codes to allow specialists to use the iUGO Care platform to provide disease-specific care management to their patients. Unlike the Chronic Care Management (CCM) billing codes, which are intended for use by a patient’s primary care provider and require that a patient have two or more chronic conditions, PCM provides reimbursement to specialists managing patients with one chronic condition. This allows Endocrinologists, Nephrologists, Respiriologists, Cardiologists and other specialists to provide ongoing care to their patients in the community setting to prevent complications, reduce the cost of care and improve health outcomes.”

Reliq Health Technologies is a healthcare technology company that specializes in developing innovative software solutions for the Community Care market. Reliq’s powerful iUGO Care platform supports care coordination and community-based healthcare. iUGO Care allows complex patients to receive high quality care at home, improving health outcomes, enhancing quality of life for patients and families and reducing the cost of care delivery. iUGO Care provides real-time access to remote patient monitoring data, allowing for timely interventions by the care team to prevent costly hospital readmissions and ER visits. Reliq Health Technologies trades on the TSX Venture under the symbol RHT and on the OTCQB as RQHTF.

ON BEHALF OF THE BOARD

“Dr. Lisa Crossley”

CEO and Director
