

## **SenesTech & FORSHAW Reach Distribution Agreement for ContraPest®**

FLAGSTAFF, Ariz., July 23, 2018 — SenesTech, Inc. (NASDAQ: SNES), a developer of proprietary technologies for managing animal pest populations through fertility control, today announced a distribution agreement with FORSHAW Inc. (“FORSHAW”), a pest management distributor, for ContraPest®. In addition to distribution, FORSHAW will be marketing and selling ContraPest throughout its network, and providing training to pest management professionals (PMPs) in the eastern United States.

“FORSHAW distinguishes itself by providing superior customer service, innovation and education to its Pest Management Partners. The company has a commitment to bringing its customers the absolute best in new technologies that improve the customers’ businesses. This makes FORSHAW an ideal partner for ContraPest,” said Dr. Loretta P. Mayer, Chair, CEO and co-founder of SenesTech.

“FORSHAW’s commitment to innovation and education provide us with an opportunity to jointly market into areas and customer segments that we could not previously reach,” said Joe Malinowski, SenesTech’s VP of Sales. “We have a number of promotions and projects in the line up for our work with FORSHAW.”

FORSHAW will be a stocking distributor and is already shipping ContraPest.

### **About ContraPest**

ContraPest® is an innovative technology that targets the reproductive capabilities of Norway and roof rats. As a highly palatable liquid, the formulation promotes sustained consumption, helping to reduce fertility in both male and female rats, bringing populations down and keeping them down. Our delivery system is designed to minimize handler exposure, and ContraPest is dispensed inside tamper resistant bait stations, minimizing the risks to non-target species.

As a versatile tool, ContraPest can be used within Integrated Pest Management (IPM) programs to help reduce reproduction and magnify the success of IPM protocols or as a standalone, non-lethal solution for customers that are looking to reduce or eliminate the use of lethal methodologies.

ContraPest is a Restricted Use Pesticide, due to applicator expertise. Please read and comply with all label instructions. Target species: Norway and roof rats

## **About SenesTech**

SenesTech has developed and is in the process of commercializing a proprietary technology for managing animal pest populations, primarily rat populations, through fertility control. For more information visit the SenesTech website at [www.senestech.com](http://www.senestech.com).

## **Safe Harbor Statement**

*This release contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended and such forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. "Forward-looking statements" describe future expectations, plans, results, or strategies and are generally preceded by words such as "may," "future," "plan" or "planned," "will" or "should," "expected," "anticipates," "draft," "eventually" or "projected." You are cautioned that such statements are subject to a multitude of risks and uncertainties that could cause future circumstances, events, or results to differ materially from those projected in the forward-looking statements, including the risks that actual results may differ materially from those projected in the forward-looking statements as a result of various factors and other risks identified in our filings with the Securities and Exchange Commission. Forward-looking statements include but are not limited to, our expectations regarding FORSHAW'S sales, marketing, training, promotions and projects relating to ContraPest. All forward-looking statements contained in this press release speak only as of the date on which they were made and are based on management's assumptions and estimates as of such date. We do not undertake any obligation to publicly update any forward-looking statements, whether as a result of the receipt of new information, the occurrence of future events or otherwise.*
