A New Era of Alcohol Safety and Support

SOBRsafe's advanced safety management technology SOBRcheck™ hygienically detects and instantaneously reports the presence of alcohol as emitted through the pores of a fingertip – no breath, blood or urine sample is required, just the touch of a finger. SOBRcheck was awarded the *Occupational Health & Safety* 2022 New Product of the Year – Safety Monitoring Devices, and has received the Child Safety Network Safe Family Seal of Approval.

About SOBRsafe™

The annual cost of alcohol abuse in the U.S. is **\$249 billion**. Nearly half of all industrial accidents with injuries are alcohol-related, and 1-in-10 U.S. commercial drivers test positive for alcohol (the highest rate worldwide). In response, SOBRsafe™ has developed a proprietary, touch-based identity verification, alcohol detection and cloud-based reporting system. The technology is transferable across innumerable form factors, including stationary access control, personal wearables and telematics integration.

A preventative solution in historically reactive industries, it is being deployed for commercial fleets, workplaces, alcohol rehabilitation and probation management; other intended applications include air and rail, and young drivers. This patent-pending alcohol detection solution helps prevent an intoxicated worker from taking the factory floor or a driver from receiving the keys to a truck, bus or rideshare vehicle. An offender is immediately flagged, and an administrator is empowered to take the appropriate corrective actions. At SOBRsafe, we are **creating a culture of prevention and support**.
