### **Distribution Model Through Established Sales Channels Accelerates Path to Revenue Growth**

(NASDAQ:SOBR) (SOBRsafe™ or the Company), providers of innovative solutions for alcohol safety management, today announced that has signed its first Master Distributor Agreement with Virginia-based RecoveryTrek. Founded in 2011, RecoveryTrek provides innovative alcohol management solutions to clients nationwide in the behavioral health, judicial, workplace and human services markets. Under the Agreement, RecoveryTrek intends to expand SOBRsafe's national footprint as a reseller of its products.

"At RecoveryTrek, the success of client programs is our highest priority – and we continuously evolve to achieve this," stated RecoveryTrek Founder & CEO Kirk Cizerle. As described in the article, "featuring real-time results and data analytics, SOBRcheck immediately detects the presence of alcohol through a simple, non-invasive finger touch – no blood, no saliva, no breathing into any kind of device. These results enable employers to uniformly and objectively manage their current alcohol policy, and prevent alcohol-related catastrophes on our roads and in the workplace *before* they happen."

**About RecoveryTrek ([www.recoverytrek.com](http://www.recoverytrek.com))** RecoveryTrek is committed to providing state-of-the-art products, customized software solutions and excellent customer service for organizations and individuals focused on behavioral health and reduction of substance abuse. Since 2011 RecoveryTrek has partnered with a wide variety of professional monitoring

programs, treatment centers, non-profit organizations and individuals all with a desire to incorporate the most advanced evidenced-based tools including software, mobile, and laboratory solutions into their treatment protocols.

**About SOBRsafe™ ([www.sobrsafe.com](http://www.sobrsafe.com))** The annual cost of alcohol abuse in the U.S. is **\$249 billion**. Nearly half of all industrial accidents with injuries are alcohol-related, and 1-in-10 U.S. commercial drivers test positive for alcohol (the highest rate worldwide). In response, SOBRsafe™ has developed a proprietary, touch-based identity verification, alcohol detection and cloud-based reporting system. The technology is transferable across innumerable form factors, including stationary access control, personal wearables and for telematics integration. A preventative solution in a historically reactive industry, it is being deployed for commercial fleets and workplaces; other intended applications include managed care and young drivers. This patent-pending alcohol detection solution helps prevent an intoxicated worker from taking the factory floor or a driver from receiving the keys to a truck, bus or heavy machinery. An offender is immediately flagged, and the employer (or parent, rehab sponsor, etc.) is empowered to take the appropriate corrective actions. At SOBRsafe, we are **creating a culture of prevention**.
