

TETRA Technologies, Inc. Announces Fourth Quarter And Full Year 2018 Results

THE WOODLANDS, Texas, Feb. 28, 2019 /PRNewswire/ — TETRA Technologies, Inc. (“TETRA” or the “Company”) (NYSE:TTI) today announced consolidated fourth quarter 2018 earnings per share before discontinued operations attributable to TETRA stockholders of \$0.04. This compares to a consolidated net loss of \$0.06 per share before discontinued operations attributable to TETRA stockholders in the third quarter of 2018, and a consolidated net loss per share before discontinued operations attributable to TETRA stockholders of \$0.22 in the fourth quarter of 2017.

TETRA’s adjusted per share results attributable to TETRA stockholders for the fourth quarter of 2018⁽¹⁾, before discontinued operations and excluding special items, was a net loss per share of \$0.01. This compares to an adjusted loss per share of \$0.02 in the third quarter of 2018⁽¹⁾ and adjusted loss per share of \$0.03 in the fourth quarter of 2017⁽¹⁾, before discontinued operations and excluding special items.

Fourth quarter 2018 revenue before discontinued operations was \$282 million, an increase of 10% over the third quarter of 2018 and 41% over the fourth quarter of last year.

Total year 2018 revenue before discontinued operations was \$999 million, an increase of 38% over 2017.

- (1) Adjusted earnings/loss per share is not a generally accepted accounting principle in the United States (“GAAP”). Please see Schedule F for the reconciliations of these non-GAAP financial measures to the most directly comparable GAAP measure.)

(2) These measures are not presented in accordance with GAAP. Please see the accompanying schedules for the reconciliations of these non-GAAP financial measures to the most directly comparable GAAP measures.

Fourth Quarter Highlights include:

- Consolidated profit before taxes and before discontinued operations was \$6.1 million, a \$19.1 million sequential improvement. Consolidated Adjusted EBITDA before discontinued operations of \$46.6 million (16.5% of revenue) increased sequentially by \$4.8 million primarily due to much stronger results in our Compression segment, which benefitted from one of the strongest new equipment sales quarters in its history.
- Water & Flowback Services profit before taxes was \$8.0 million, 10.1% of revenue. Adjusted EBITDA of \$15.9 million was unchanged from the third quarter despite a year-end slowdown in activity by many operators. Revenue increased sequentially by \$1.2 million. Adjusted EBITDA margins were 19.9% in the fourth quarter compared to 20.3% in the third quarter 2018.
- Completion Fluids & Products profit before taxes was \$9.5 million, 14.7% of revenue. Adjusted EBITDA of \$13.0 million compares to \$12.5 million in the third quarter, driven by strong Gulf of Mexico and international offshore activity.
- Compression net loss before taxes was \$3.3 million. Adjusted EBITDA increased to \$29.2 million from \$24.6 million in the third quarter due to one of the highest new equipment sales quarters in the segment's history and stronger after-market activity. The Compression segment continues to see improving activity levels from service equipment being deployed into gathering and centralized gas lift systems and higher

demand for aftermarket services. Utilization of the service fleet increased from 86.3% at the end of the third quarter to 86.6% at the end of the fourth quarter.

- Completed an acquisition in the Water & Flowback segment in the Appalachian region to increase our water management offerings and balance out our production testing business there, further boosting our integrated projects strategy.

Stuart M. Brightman, TETRA's Chief Executive Officer, stated, "In the fourth quarter we saw several of our segments perform at or above our expectations, which was encouraging given the challenges our industry experienced as oil prices declined to the low \$40s/bbl range and from Permian Basin take away constraints. Water & Flowback Services revenue in the United States increased sequentially led by strong Permian and Mid-Con activity. We continue to make progress and gain traction with our integrated water management offerings and are very pleased with the traction we are gaining by bundling our multiple service offerings with automation. US offshore completion fluids revenue increased significantly and had the strongest quarter of the year. Compression revenue increased sequentially by 20% on higher new equipment sales and stronger aftermarket services. We do not expect new equipment sales to continue early in 2019 at the fourth quarter levels, but given the lead time necessary to fabricate new equipment, we already have in the backlog the vast majority of new equipment sales that we expect to recognize in 2019.

"Water & Flowback Services fourth quarter 2018 revenue increased 1.5% sequentially to \$79.8 million primarily due to strong Permian and Mid-Con activity, while the rest of the lower 48 slightly declined as customers exhausted their budgets or scaled back activity for the holidays. Although quarter on quarter the rig count was only up modestly, the inventory of drilled but uncompleted wells (DUC's) continued to increase at a faster pace, especially in the Permian where they increased 18% since September 2018 according to the EIA. While some customers scaled back in December for the holidays, others continued through the end of the year and into January. Despite the slower completion activity in the fourth quarter, we continue to gain momentum and market share by integrating and automating our water management solutions. We are now providing more than 16 different integrated solution projects across multiple basins, up from 11 that we reported in the prior quarter. These integrated solutions are allowing us to differentiate ourselves and to provide more cost effective and efficient solutions to our customers. When fully implemented, these systems can reduce wellsite personnel requirements by up to 40%. In the fourth quarter, we expanded these offerings into a fourth region and had at least one integrated project in each of the Permian, Appalachian, Mid-Con and the Rockies regions. In December, we completed an acquisition in this segment that broadens our footprint in the Appalachian region and is expected to provide our customers an enhanced, more efficient, diverse and strategically positioned portfolio of integrated water management services in the Marcellus and Utica basins. That acquisition was almost completely integrated within two months of closing and has already generated revenue and earnings above our initial expectations. The purchase

price included \$7.7 million at closing, funded from cash on hand and a \$1.5 million earn-out to be paid in 2019 upon the attainment of certain financial targets.

“Completion Fluids & Products revenue was \$64.7 million for the fourth quarter of 2018, an increase of 2.5% from the third quarter of 2018 driven by strong offshore fluids sales. During the fourth quarter, we experienced stronger completion fluid sales volumes in the Gulf of Mexico and internationally offshore than in previous quarters in 2018. On our conference call last quarter, we reported that the TETRA CS Neptune[®] completion fluid projects anticipated for the fourth quarter of 2018 were pushed into 2019. One of the anticipated projects was not completed by our customer as the customer decided to cancel the completion phase of the well. The drilling phase of the second project continues but usage of the TETRA CS Neptune[®] fluids will be dependent on the formation pressures encountered and the completion would likely not be before the second half of 2019. We are also currently in advanced discussions for a Gulf of Mexico project scheduled for this year and believe that the downhole pressures will require TETRA CS Neptune[®] completion fluid as the solution. Beyond 2019 we are in discussions with two other major Gulf of Mexico deepwater operators for their lower tertiary development projects. These lower tertiary development projects will likely require our generation three TETRA CS Neptune[®] fluid, capable of achieving a density of 17 lbs/gallon. The third generation technology is increasing the number of TETRA CS Neptune[®] completion fluid applications by significantly widening the downhole pressure window and we continue to make strides in the development of this solution as well as in testing it with our customers.

“Our overall pipeline for the TETRA CS Neptune[®] completion fluid projects continues to build and our relationship with Halliburton to identify additional TETRA CS Neptune[®] completion fluid opportunities continues to gain traction.

“Fourth quarter 2018 Compression revenue increased 19.8% sequentially to \$138.1 million, reflecting a strong market environment. Compression and related services gross margin was 43.6%. Compression and related services gross margins excluding the impact of a tax contingency of \$2.1 million was 47.1% (see Schedule K for reconciliation of this non-GAAP financial measure), which decreased slightly from the third quarter due to slightly higher labor and inventory-related costs. New equipment orders of \$18.0 million were received in the fourth quarter while total orders received in 2018 were \$188 million. Our new equipment sales backlog was \$105.2 million at the end of the fourth quarter, a decrease of \$35 million from the end of the third quarter, which is primarily a function of strong equipment sales in the fourth quarter. We expect to deliver all of the backlog by year-end 2019. Compression loss before taxes for the fourth quarter of 2018 was \$3.3 million compared to a \$7.8 million loss for the third quarter of 2018. Adjusted EBITDA was \$29.2 million in the fourth quarter, compared to \$24.6 million in the third quarter. On December 20, 2018, CSI Compressco LP, a

partially owned subsidiary (the “Partnership”), announced plans to reduce the quarterly common unit distribution for the fourth quarter from the \$0.1875 per unit (\$0.75 per unit per year) previously paid to \$0.01 per unit (\$0.04 per unit per year) for up to the following four quarters. The Partnership’s intention is to review this reduction in the distribution in the second half of 2019. The Partnership intends to use the savings from the reduced distributions to cash redeem the remaining outstanding Series A Convertible Preferred Units to avoid diluting the Partnership’s existing common unit holders as a result of the low trading price of the common units despite a strong earnings environment and outlook. On January 22, 2019, the Partnership declared a cash distribution attributable to the fourth quarter of 2018 of \$0.01 per outstanding common unit, which was paid on February 14, 2019 to common unitholders of record as of the close of business on February 1, 2019. The distribution coverage ratio for the fourth quarter of 2018 was 28x. The Partnership’s goal as stated at the May 31, 2018 investor conference in New York City continues to be to improve its EBITDA leverage ratio from the current levels to 4.5x or below and it believes it is making progress towards that goal.”

Free Cash Flow and Balance Sheet

Consolidated net cash from operating activities for the fourth quarter of 2018 was \$45.0 million. TETRA only adjusted free cash flow in the fourth quarter was \$15.3 million. Consolidated net debt was \$775.5 million, while TETRA only net debt was \$158.3 million (see Schedules H and I for reconciliations of these non-GAAP financial measures). At the end of the fourth quarter TETRA only non-restricted cash was \$24.2 million.

Special items

Special items, including Discontinued Operations, incurred in the fourth quarter, as detailed on Schedule F, include the following:

- \$11.2 million non-cash gain for TETRA stock warrant fair value adjustment
- \$2.1 million non-cash gain for the fair value adjustment of CSI Compressco’s Series A Convertible Preferred Units
- \$0.8 million of transaction expenses related to acquisition activities
- \$0.3 million non-cash expense for a fair value adjustment of the SwiftWater earn-out obligation
- \$2.1 million expense for CSI Compressco non-income tax contingency
- \$0.7 million non-cash expense for fixed assets/intangible impairment and other charges

Additionally, a normalized tax rate of 21% is reflected in Adjusted Net Income, as shown on Schedule F.

Conference Call

TETRA will host a conference call to discuss these results today, February 28, 2018, at 10:30 a.m. ET. The phone number for the call is 1-888-347-5303. The conference will also be available by live audio webcast and may be accessed through TETRA's website at www.tetratec.com. A replay of the conference call will be available at 1-877-344-7529 conference number 10127858, for one week following the conference call and the archived webcast call will be available through the Company's website for 30 days following the conference call.

Company Overview and Forward-Looking Statements

TETRA Technologies, Inc. is a geographically diversified oil and gas services company, focused on completion fluids and associated products and services, water management, frac flowback, production well testing, and compression services and equipment. TETRA owns an equity interest, including all of the general partner interest, in CSI Compressco LP (NASDAQ:CCLP), a master limited partnership.

This news release includes certain statements that are deemed to be forward-looking statements. Generally, the use of words such as "may," "expect," "intend," "estimate," "projects," "anticipate," "believe," "assume," "could," "should," "plans," "targets" or similar expressions that convey the uncertainty of future events, activities, expectations or outcomes identify forward-looking statements that the Company intends to be included

within the safe harbor protections provided by the federal securities laws. These forward-looking statements include statements concerning the anticipated recovery of the oil and gas industry, expected benefits from the acquisition of SwiftWater Energy Services and expected results of operational business segments for 2019, including levels of CSI Compressco's cash distributions per unit, projections concerning the Company's business activities, financial guidance, estimated earnings, earnings per share, and statements regarding the Company's beliefs, expectations, plans, goals, future events and performance, and other statements that are not purely historical. These forward-looking statements are based on certain assumptions and analyses made by the Company in light of its experience and its perception of historical trends, current conditions, expected future developments and other factors it believes are appropriate in the circumstances. Such statements are subject to a number of risks and uncertainties, many of which are beyond the control of the Company. Investors are cautioned that any such statements are not guarantees of future performances or results and that actual results or developments may differ materially from those projected in the forward-looking statements. Some of the factors that could affect actual results are described in the section titled "Risk Factors" contained in the Company's Annual Reports on Form 10-K, as well as other risks identified from time to time in its reports on Form 10-Q and Form 8-K filed with the Securities and Exchange Commission.

Schedule E: Statement Regarding Use of Non-GAAP Financial Measures

In addition to financial results determined in accordance with GAAP, this press release includes the following non-GAAP financial measures for the Company: net debt, adjusted consolidated and segment income (loss) before taxes, and special charges; consolidated and segment adjusted EBITDA; and TETRA only adjusted free cash flow and TETRA only free cash flow from continuing operations. The following schedules provide reconciliations of these non-GAAP financial measures to their most directly comparable GAAP measures. The non-GAAP

financial measures should be considered in addition to, not as a substitute for, financial measures prepared in accordance with GAAP, as more fully discussed in the Company's financial statements and filings with the Securities and Exchange Commission.

Management believes that the exclusion of the special charges from the historical results of operations enables management to evaluate more effectively the Company's operations over the prior periods and to identify operating trends that could be obscured by the excluded items.

Adjusted income (loss) before taxes (and adjusted income (loss) before taxes as a percent of revenue) is defined as the Company's (or the Segment's) income (loss) before taxes excluding certain special or other charges (or credits). Adjusted income (loss) before taxes (and adjusted income (loss) before taxes as a percent of revenue) is used by management as a supplemental financial measure to assess financial performance, without regard to charges or credits that are considered by management to be outside of its normal operations.

Adjusted diluted earnings (loss) per share before discontinued operations is defined as the Company's diluted earnings (loss) per share excluding certain special or other charges (or credits) and using a normalized effective income tax rate. Adjusted diluted earnings (loss) per share is used by management as a supplemental financial measure to assess financial performance, without regard to charges or credits that are considered by management to be outside of its normal operations.

Adjusted EBITDA before discontinued operations (and Adjusted EBITDA before discontinued operations as a percent of revenue) is defined as earnings before interest, taxes, depreciation, amortization, impairments and certain non-cash charges and non-recurring adjustments. Adjusted EBITDA before discontinued operations (and Adjusted EBITDA before discontinued operations as a percent of revenue) is used by management as a supplemental financial measure to assess the financial performance of the Company's assets, without regard to financing methods, capital structure or historical cost basis and to assess the Company's ability to incur and service debt and fund capital expenditures.

TETRA only adjusted free cash flow is a non-GAAP measure that the Company defines as cash from TETRA's operations, excluding cash settlements of Maritech AROs, less capital expenditures net of sales proceeds and cost of equipment sold, and including cash distributions to TETRA from CSI Compressco LP. TETRA only adjusted free cash flow from continuing operations is defined as TETRA only adjusted free cash flow less discontinued operations EBITDA and discontinued operations capital expenditures. Management uses this supplemental financial measure to:

- assess the Company's ability to retire debt;
- evaluate the capacity of the Company to further invest and grow; and
- to measure the performance of the Company as compared to its peer group.

TETRA only adjusted free cash flow and TETRA only adjusted free cash flow from continuing operations does not necessarily imply residual cash flow available for discretionary expenditures, as it excludes cash requirements for debt service or other non-discretionary expenditures that are not deducted.

TETRA net debt is defined as the sum of the carrying value of long-term and short-term debt on its consolidated balance sheet, less cash, excluding restricted cash on the consolidated balance sheet and excluding the debt and cash of CSI Compressco LP. Management views TETRA net debt as a measure of TETRA's ability to reduce debt, add to cash balances, pay dividends, repurchase stock, and fund investing and financing activities.

Schedule F: Special Items (Unaudited)

Schedule H: Non-GAAP Reconciliation of TETRA Net Debt (Unaudited)

The cash and debt positions of TETRA and CSI Compressco LP as of December 31, 2018, are shown below. TETRA and CSI Compressco LP's debt agreements are distinct and separate with no cross default provisions, no cross collateral provisions and no cross guarantees. Management believes that the most appropriate method to analyze the debt positions of each company is to view them separately, as noted below.

The following reconciliation of net debt is presented as a supplement to financial results prepared in accordance with GAAP.

	December 31, 2018		
	TETRA	CCLP (In Millions)	Consolidated
Non-restricted cash	\$ 24.2	\$ 15.9	\$ 40.0
Carrying value of long-term debt:			
Term Credit Agreement	182.5	-	182.5
Senior Notes outstanding	-	633.0	633.0
Net debt	\$ 158.3	\$ 617.1	\$ 775.5

Schedule I: Non-GAAP Reconciliation to TETRA Only Adjusted Free Cash Flow (Unaudited)
