

# Zomedica Finalizes Acquisition of Veterinary Imaging Company Revo Squared

**ANN ARBOR, MI / July 6, 2022** / Zomedica Corp. (NYSE American:ZOM) ('Zomedica' or the 'Company'), a veterinary health company offering diagnostic and therapeutic products for companion animals, today announced that the acquisition of the assets of Revo Squared LLC ('Revo') was recently completed.

Revo's innovative MicroView digital cytology platform will provide veterinarians with best-in-class image quality while providing the first in-clinic automated slide preparation system. Slide preparation is a critical part of hematology and cytology, and slide preparation errors are the number one reason cited by pathologists for being unable to read a slide. The MicroView platform improves practice workflow efficiency by automating the process to assure a consistent smear and stain to produce a readable slide.

Final development, manufacturing, and distribution for the MicroView digital cytology platform will move to Zomedica's new global manufacturing and distribution center in Roswell, Georgia, to take advantage of the site's capital improvements, expansion in manufacturing capacity, and advanced technologies.

"We're excited to bring the MicroView platform to our new facility," said Tony Blair, Chief Operating Officer of Zomedica. "We will be able to readily capitalize upon the success of our current high-quality manufacturing site and the experienced workforce already operating there - and we look forward to developing it further to bring MicroView to the veterinary market in 2023."
