VANCOUVER, BC, Nov. 22, 2021 /CNW/ — Zoomd Technologies Ltd. (TSXV: ZOMD) (OTC: ZMDTF) (“**Zoomd**” or the “**Company**”), a leading provider of an online advertising robust marketing platform that focuses on improving customers user acquisition campaigns, reported its financial results for the three and nine-month period ended September 30, 2021 today. The financial statements and MD&A are available on SEDAR under the Company’s profile.

Ofer Eitan, Zoomd’s CEO, commented, “we achieved a new record in Q3 2021 as our focus on diversifying our client base, both with respect to sectors and geographies, is beginning to bear fruit. We are seeing a surge in budgets from our legacy clients that are looking to expand their acquisition sources, as the post-pandemic recovery continues and privacy limitations start affecting advertisers ROI’s. The strong revenue growth is producing positive adjusted EBITDA and cash flows, demonstrating the strength of our business and strategic positioning.”

Ofer further added, “we are continuing to experience strong demand for our user-acquisition products and services from both new and existing clients, driven by our innovative technology, and the great results our existing clients are achieving with our technology. We are seeing an increase within the allocation of advertising budgets to our platform and services, which we consider to be a direct result on the Company’s ability to mitigate against the impacts of the major iOS 14, 15 updates and other new market privacy limitations rolled out, as well as announced by Apple and Google.

Ofer ended by noting that, “our growth initiatives to expand into new geographies, such as Latin America and Asia, as well as expanding in hyper growing industry categories including fintech, e-commerce, gaming, and on demand services, have proven successful. As we look forward to 2022 and beyond, we expect to ramp up our self-serve products to expand our client base and further the growth of the Company.”
