	Three months ended

The Company believes Adjusted EBITDA is useful to investors in their assessment of the operating performance and the valuation of the Company. However, non-IFRS financial measures are not prepared in accordance with GAAP or IFRS, and the information is not necessarily comparable to other companies and should be considered as a supplement to, not a substitute for, or superior to, the corresponding measures calculated in accordance with GAAP or IFRS. The references in this press release to Adjusted EBITDA are forward-looking information about prospective financial performance and readers are cautioned that this information may not be appropriate for other purposes.
