Management Commentary

Ido Almany, CEO of the Company stated, “In response to market trends challenges, the Company’s management team undertook at the end of the first half of 2023 a series of strategic actions aimed at mitigating the impact on the Company’s financial health and positioning the Company for sustainable growth, including a decision to cease operations in certain business lines and refocus Company’s efforts and own technology on core user acquisition activities. Additionally, the management team successfully implemented substantial cost-reduction measures across various areas of the Company, aiming to streamline operations and improve efficiency.

We have already begun to see the fruits of our actions in the second half of 2023 with an improvement of \$1.1M in terms of adjusted EBITDA comparing the first with the second half of the 2023 fiscal year. Moreover, these actions led to positive operating income, for the first time in 5 quarters. The joint work of the management team and the board and the successful execution of the restructuring plan previously announced, lays the stable foundation to build upon. We are confident in our ability to continue delivering results for our current and future clients.”

Amit Bohensky, Chairman of Zoomd Technologies added “The hard work and collaboration between the management team and the board are showing through the numbers of the 2023 financial statement. I stay confident and optimistic in our team work. We are thankful to our supportive investors and delighted to share this journey with them.”
